WHICH IS THE BIG MAN?

The politician who makes a famous speech that rings around the world becomes a great man and breaks into history. But the farmer who raises the biggest potato and the cleanest wheat is a boon to humanity and history never hears of him. And yet we claim to be a just and impartial people!

Just what is our European situation? What is our Mexican situation? What is our internal situation? What is the whole darned situation, anyway? Honestly, we'd like to know.

HIGH COST OF

LIVING LOWERED

With summer coming along you will naturally soon be more or less peeved at the weeds that spring up on every hand. You may, in fact, be doing a little quiet cussing on the sly. But did you ever stop to think that many of those weeds make good articles of diet? They do. There are ten weeds that can be used for food. They are the dock, nettle, sorrel, purslane, milkweed, dandelion, pigweed, lamb's quarter, marsh marigold, and brake fern. Is the high price of living bothering you? Eat weeds. Would you enjoy a welcome change from the usual grind of foodstuffs? Eat weeds. Would you place a meal before your neighbor that will make him gasp and wonder where you got such delicious delicacies? Use weeds. And when you want to feast on something that really costs nothing, just simply eat weeds.
